

## **IN THE CLAIMS**

115. (New) An insect screen comprising:
- a screen of intersecting elements, the screen having an open area of at least 75%;
- an organic coating applied to the screen; and
- wherein said coating comprises a pigment.
116. (New) An insect screen comprising:
- a screen of intersecting elements, the screen having an open area of at least 75%;
- an organic coating applied to the screen; and
- wherein said coating comprises finely divided carbon.
117. (New) An insect screen comprising:
- a screen of intersecting elements, the screen having an open area of at least 75%;
- an organic coating applied to the screen; and
- wherein said coating is applied by a liquid coating application.
